

# LESS WORK, **MORE WORKDAY**

Make Workday work for you with custom solutions designed by TopBloc.

TopBloc is a full-service, 100% Workday-focused firm whose mission is to help our customers improve and optimize their enterprise with Workday. Whether you are looking for a partner to assist with your initial Workday deployment, a secondary enhancement, or ongoing Workday support, TopBloc can help.

### **OUR APPROACH**

At TopBloc, we believe Workday deployments should be catalysts for organizations to evaluate their current business processes and strengthen them. Rather than simply migrating your old system to Workday, our team will partner with you to identify areas of improvement while we work together to develop a system that enables your organization to operate more efficiently.

Our consultants work as an extension of our client's team to provide customers with tailored solutions to fit their needs. We are known for:

- Innovative, technology-driven methodology
- Industry-leading deployment speed
- · Competitive fixed-time, fixed-fee pricing
- Best-in-class advisory services led by consultants with comprehensive expertise

As a preferred Workday partner, TopBloc works across industries with both Large and Medium Enterprise firms. We are proud to be recognized as one of the leading Workday Services Providers since 2018. We offer a wide range of services, including:

#### **Workday Deployments**

**TopBloc** provides

accelerated results.

comprehensive Workday

#### Workday Support

#### Roadmapping

For companies already live on Workday, TopBloc is available to provide continuing technical and functional support through our Application Management Services offerings. Workday is all we do, which means we have unparalleled knowledge of how to manage the system and optimize your investment.

Our team can help you evaluate, plan, and execute enhancements to your Workday application. Whether you are looking to expand your suite of Workday applications, deploy new functionality, or need support in determining how to manage an acquisition or divestiture, our expert team is here to help.

## THE **SMARTLOADER** DIFFERENCE

At TopBloc, we pride ourselves on our ability to reduce resourcing requirements, enabling clients to remain focused on their business while they gain immediate value from their Workday platform.

We developed SmartLoader to eliminate inefficiencies, lessen menial tasks, streamline manual processes, and deliver accelerated results.

SmartLoader automates historically manual processes to achieve a more agile deployment. The tool enables clients to focus more attention on optimizing solutions - and less time pouring over spreadsheets.

deployment services; our team can assist with the deployment of any solution Workday offers, from HCM to Financials to Adaptive Planning and more. Our technology-based solutions enable us to deliver our clients
