

Testing Administration & Execution Services

Ensure your Workday deployment launches smoothly by engaging TopBloc to oversee and manage end-to-end system testing.

TopBloc offers 2 tiers of Testing Administration & Execution Services. Choose to engage with us for strategic advisory and testing management support only with our Testing Administration package, or add-on Testing Execution services based on the needs of your organization:

Testing Administration

TopBloc's Testing Administration provides oversight and guidance on performing testing activities. This tier of service is designed to help your organization strategically plan the testing process. While your team remains fully in control of test execution, our experts will provide support in planning testing cycles and assist you in reviewing and analyzing testing results.

Testing Execution

TopBloc's Testing Execution provides a fully-outsourced testing experience, in which our team will run test scenarios on behalf of your organization. With Testing Execution, your organization receives supplemental hands-on-keyboards testing services in which TopBloc's Workday-certified experts actively perform testing on your behalf.

Engage with TopBloc to Strategically & Meticulously Complete Your System Testing

Designated Testing Manager

Not only will TopBloc's team provide administration and oversight to meticulously administer your testing process, but you will also gain access to a designated contact to answer any questions that may arise during the process.

Save Meaningful Time

Testing Administration saves customer test teams an average of 10 hours per week. That's time savings that your team can use to remain focused on your day-to-day or dedicate to strategizing other aspects of your Workday deployment.

Access to Testing Experts

TopBloc has provided testing administration and execution services to over 100 global projects spanning various industries since 2021. The team is highly qualified to provide oversight and/or execution that ensures your Workday tenant launches successfully following testing.

Higher Pass Rate

With TopBloc's Testing Administration, customers complete their testing stage with more robust solutions. Clients average 92% execution and 82% pass rate for Unit Testing, and 95% execution and 90% pass rate for End To End Testing.
