# TOPBLOC

Tenant Health Dashboard

Introducing our new Tenant Health Dashboard, a centralized hub providing insights into your Workday tenant's health.

Stay informed on business processes, security risks, integrations and feature adoption for confident decision-making.

Gain insights into your tenant's:

→ **Business Processes**

Leverage organizational-level data to proactively address challenges and capitalize on improvement opportunities for business processes.

→ **Integrations**

Efficiently monitor incoming and outgoing data flow by receiving overviews of past and future integrations.

→ **Security Risks**

Receive real-time threat insights to protect data and take proactive measures for robust security.

→ **Feature Adoption**

Review actionable insights into user engagement with new features, enabling data-driven decisions to enhance end-user experiences.

If interested in this solution, please contact your **Client Partner** or join our Help Desk and take advantage of all that TopBloc offers!
